

Dynamic Triage Assessment

Target: SwiftLogic Inc. / Palomino product documents

PIPELINE	Automated Triage Pipeline
CASE ID	VIGIA-REAL-010
PREPARED BY	Autonomous DFIR Agent
REPORT DATE	2026-06-12 UTC

01 Executive Summary

The investigation confirms a case of industrial espionage involving the exfiltration of confidential PDF documents related to the Palomino product. Evidence indicates malware was installed on the victim's (Yob Taog) phone to facilitate systematic downloads and exfiltration to an external server (50.56.29.109). The suspect, Donald Norby, engaged in negotiations for the sale of these documents, including a failed renegotiation attempt to increase the price, which may be linked to the criminal group 'KRYPTIX'. Norby's subsequent death under violent circumstances suggests a potential organized crime nexus.

02 System Profile & Evidence Scope

PROPERTY	VALUE
Target Evidence Path	SwiftLogic Inc. / Palomino product documents
Analysis Timestamp	2026-06-12 13:46 UTC
Analysis Tooling	Autonomous MCP Framework

03 Extracted Artifacts Matrix

ARTIFACT NAME / IDENTIFIER	FORENSIC ANALYSIS & DESCRIPTION
Exfiltration Server	Hardcoded external server IP found in malware code used for systematic PDF exfiltration.
Malware Activity	SMS messages confirm malware installation and periodic exfiltration of confidential documents.
Confidential Documents	Confidential SwiftLogic PDF files identified on the device SD card.
Reconnaissance Activity	Browser history indicates prior reconnaissance on target company employees.
Device Identification	EXIF metadata from photos on the device confirms the hardware as a Motorola Droid, linking the device to the exfiltrated files.
Criminal Nexus	

ARTIFACT NAME / IDENTIFIER	FORENSIC ANALYSIS & DESCRIPTION
	Evidence of negotiation dynamics and suspect's violent death suggests involvement of the criminal group KRYPTIX.

This report was produced automatically via an LLM-driven forensic pipeline. Findings are based strictly on evidence present in the provided target at the time of analysis.
